Dr. McLean's Case.

The committee on privileges and elec-tions met yesterday immediately after the adjournment of the House, and took up the case of Dr. E. P. McLean, the member from the county of Mecklenburg, who refused to take the oath prescribed for members of the general assembly by the new constitution. The resolution offered by Mr. Heermans (republican), of Montgomery, requiring Dr. McLean to appear within three calendar days after the passage of the resolution by the House, and to take the oath, or the seat to be declared vacant, was adopted. The matter was to have been reported to the House at the session today and it is un-derstood that Dr. McLean, who has resigned the federal position held by him, will present himself at the bar of the House on Monday morning and take the oath. A letter was read to the committee from Dr. McLean, setting forth his views on the proceedings, in which he makes rather severe strictures upon the reported action of members of the comnittee in discussing the case before he had an opportunity to present his case. ond News.

Dr. McLean says he has not as yet resigned his position in the internal revenue service. He also says he wrote "a special plea" to the chairman of the committee which, however, was not in the nature of a letter. As to presenting himself at the bar of the House for the purpose of being sworn in, his action, be easy will be governed entirely by that of the House in his case.]

A dispatch from Richmond says: "Mr. McLean, who holds a federal office, which it is claimed bars him from membership in the House, has not been in his seat this session and has not drawn his salary. It is stated that he will not appear, and that the seat will be declared

Accident to a Conductor.

Conductor George Walters of the Southern Railway was the victim of a serious accident on north Union street yesterday evening. Mr. Walters with others of the train crew were engaged in shifting cars in front of the Alexandria Fertilizer and Chemical Company's building and was standing on a platform when a box car which was in motion struck him on the side of the head. A brakeman, who was nearby, with re-markable presence of mind seized him and pushed him aside, saving his life, as otherwise he would have fallen on the track and been killed. The injured conductor was removed to his home where received surgical attention. Mr. Walters's injuries are said to be serious.
